Commissioner of Patents and Trademarks  
Washington, D.C. 20231

AMENDMENT AND RESPONSE

This amendment is being filed in response to an Office action dated March 21, 2002. A three month extension of time to respond to and including September 21, 2002, has been requested and the appropriate fee paid.

IN THE CLAIMS:

RECEIVED

OCT 03 2002

TECHNOLOGY CENTER R3700

Claims 26, 36, 37, and 48 are pending.

Claims 26, 36, 37, and 48 are hereby cancelled.

Please add new claims 51 and 52 as follows:

*Sub E17*  
51. A cold separation device for separating a cold elongate metallic workpiece along a substantially longitudinal axis thereof into two separate parts, said device comprising:

separate first, second and third spaced apart workpiece supports, said first and third workpiece supports extending upstream and downstream respectively of said second workpiece support;
